NRS Design Studio can help you plan and coordinate your project from concept to completion, while keeping you involved and informed throughout the process. Our careful attention to detail ensures that your design vision comes to life in a smooth and timely manner. We understand that every project is unique, and we will work closely with you to customize a service package that is tailored to fit your specific needs and budget.

COMPLETE KITCHEN RENOVATION

BEFORE

"Nadine was able to turn the dreaded kitchen remodel into a fun experience. One of the amazing things about Nadine is she is able to take your vision, your taste, and turn it into something spectacular. I was glad to work with someone who was concerned about my budget, and made sure the project was done right."
